**Updated notice nr 6 on arrangements of the Boxon Group during corona virus prevention**

We are concerned by the virus outbreak and follow closely WHO and Government authorities' guidelines to minimize all risks of human contamination. Our first priority is the health and wellbeing of our staff and customers.

Boxon has taken number of actions to prevent any possible consequence that could potentially affect service to our customers:

- We have **minimized all personal meetings** to avoid contact that may involve spread. Communication with our customers and other stakeholders will mainly take place by phone, email or skype.
- We are in **tight dialog with our main suppliers and forwarders** to identify and assess any eventual risks of disruption. We have received indications about delays due to closed borders and it probably will affect delivery times.
- We have **contingency plans** in place to deal with the potential escalation of this issue and will continue to keep our people and our customers informed of any developments.

**We are still open for business in all our markets** and remain committed to give our customers the best possible service and deliveries. We are currently not experiencing any significant disruption to our operations from the Coronavirus and will continue to monitor the situation closely.

To maintain a high service level, we kindly ask you to plan ahead your purchases.

Thanks for your cooperation!

Boxon Group AB
